PROFILE SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled at translating designs into responsive, production-ready interfaces and building RESTful APIs that power them, from database design through deployment. Comfortable working across the stack in agile, fast-moving teams, with a strong focus on clean code, reusable components, and delivering features end-to-end.

SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend & APIs: Node.js, Express.js, RESTful API Design

Database: MongoDB

Tools & Platforms: Git, GitHub, Vite, VS Code, Postman, Figma

Programming Languages: JavaScript, Python

Core CS: Data Structures & Algorithms, Operating Systems, DBMS

WORK EXPERIENCE

Full Stack Web Development Intern — Synthetico.ai Pvt. Ltd.

- Developed responsive, mobile-first user interfaces using React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS, improving UI consistency across the AdoptBuddy platform.
- Designed and implemented RESTful APIs with Node.js and Express.js to handle core application logic, including user authentication, listings, and appointment scheduling.
- Integrated MongoDB with backend services — designed schemas and wrote optimized queries to support the pet adoption, lost & found, and vet appointment modules.
- Converted Figma UI/UX designs into functional, reusable React components in collaboration with cross-functional team members.
- Debugged and resolved issues across the frontend and backend stack, ensuring smooth end-to-end functionality and a stable user experience.
- Supported deployment, production configuration, and version control (Git/GitHub) in an agile team environment with regular code reviews.

PROJECTS

AdoptBuddy — Pet Care & Adoption Platform | 2 Months

React.js, Node.js, Express.js, MongoDB, Tailwind CSS | adoptbuddy.online

- Pet Adoption Module:** Built listing and search functionality allowing users to browse and filter adoptable pets by category, location, and breed.
- Lost & Found Module:** Developed a reporting system enabling users to post and search lost/found pet listings with image upload support.
- Vet Appointment Module:** Implemented a booking system with date/time selection and appointment management for veterinary services.
- Frontend:** Designed responsive UI components with React.js and Tailwind CSS, ensuring cross-device compatibility.
- Backend:** Built and integrated REST APIs with Node.js/Express.js connected to MongoDB for end-to-end data flow.
- Deployment:** Configured and deployed the application to a live production domain.

Sri Adi Ananta LLP — Watch Store Website | 2 Weeks

React.js, Vite, JavaScript, Tailwind CSS | sriadiananta.com

- Built a fully responsive client website with multi-page navigation across Home, Products, About, and Contact sections.
- Developed reusable UI components (product cards, navigation bar, footer) to maintain design consistency and speed up development.
- Implemented mobile-first responsive layouts using Tailwind CSS across all breakpoints.
- Handled complete deployment and live production configuration for the client's custom domain.

Smart Traffic and Pollution Prediction System | In Progress

Python, Machine Learning, Data Analysis, JavaScript

- Final-year project analyzing real-world traffic data to build predictive models for traffic congestion and pollution levels.
- Developing a vehicle detection module using computer-vision techniques to identify and count vehicles from traffic footage.
- Building an interactive dashboard to visualize traffic patterns and pollution insights for end users.

EDUCATION

B.Tech, Computer Science Engineering — Dr. A.P.J. Abdul Kalam Technical University, Lucknow | 2023–2027 | 77.59%

Senior Secondary (Class XII, CBSE) — Kendriya Vidyalaya, Near Bareilly | 2022 | 88%

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Next Gen Salesforce Developers – SRMSCET • Java Programming – SRMSCET&R • Software Developer Intern – Synthetico.ai

Achievements: Innovative Bharat Hackathon 2026 – Sharda University • HackNova – BIIT • GenAI Exchange Hackathon – Google Cloud • Merit-Based Scholarship (1st, 2nd & 3rd Year)

LANGUAGES & HOBBIES

Languages: Hindi (Professional Proficiency), English (Professional Proficiency)

Hobbies: Sketching, Collecting Leaf Specimens
