### PROFILE SUMMARY

Full Stack Developer with hands-on experience building responsive web applications using React.js, JavaScript, Node.js, Express.js, and MongoDB. Experienced in developing reusable UI components, RESTful APIs, authentication, database integration, and responsive designs. Practical experience through internship and real-world projects, with familiarity in Git/GitHub and web application deployment.

### SKILLS

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design

**Backend & APIs:** Node.js, Express.js, RESTful API Design, Authentication & Authorization (JWT)

**Database:** MongoDB, Schema Design, Query Optimization

**Tools & Platforms:** Git, GitHub, Vite, VS Code, Postman, Figma

**Programming Languages:** JavaScript, Python

**Core CS:** Data Structures & Algorithms, OS, DBMS, OOP

### WORK EXPERIENCE

#### Full Stack Web Development Intern

*Synthetico.ai Pvt. Ltd.*

- Built responsive, mobile-first UIs with React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS, improving UI consistency across the AdoptBuddy platform.
- Designed and developed RESTful APIs (Node.js, Express.js) for authentication, listings, and appointment scheduling.
- Modeled MongoDB schemas and wrote optimized queries for pet adoption, lost & found, and vet appointment modules.
- Converted Figma designs into reusable React components; debugged full-stack issues and supported deployment and version control (Git/GitHub) in an Agile environment with regular code reviews.

### PROJECTS

#### AdoptBuddy — Pet Care & Adoption Platform | 2 Months

*React.js, Node.js, Express.js, MongoDB, Tailwind CSS*

*adoptbuddy.online*

- Built Pet Adoption, Lost & Found, and Vet Appointment modules with search/filter, image upload, and date/time-based booking.
- Developed responsive React.js/Tailwind CSS UI and RESTful Express.js APIs integrated with MongoDB for end-to-end data flow; deployed to a live production domain.

#### Sri Adi Ananta LLP — Watch Store Website | 2 Weeks

*React.js, Vite, JavaScript, Tailwind CSS*

*sriadiananta.com*

- Built a responsive, multi-page client website (Home, Products, About, Contact) with reusable, mobile-first UI components using Tailwind CSS; handled deployment and production configuration on the client's custom domain.

#### Smart Traffic and Pollution Prediction System | In Progress

*Python, Machine Learning, Data Analysis, JavaScript*

- Building predictive ML models on real-world traffic data and a computer-vision vehicle detection module, with an interactive dashboard to visualize congestion and pollution insights.

### EDUCATION

**B.Tech, Computer Science Engineering — Dr. A.P.J. Abdul Kalam Technical University, Lucknow** 2023–2027

*Aggregate: 77.59%*

**Senior Secondary (Class XII), CBSE — Kendriya Vidyalaya, Near Bareilly**

**2022**

*Percentage: 88%*

**Secondary (Class X), CBSE — Kendriya Vidyalaya Kamptee, Nagpur, Maharashtra**

**2020**

*Percentage: 74.2%*

### CERTIFICATIONS & ACHIEVEMENTS

**Certifications:** Next Gen Salesforce Developers – SRMSCET | Java Programming – SRMSCET&R | Software Developer Intern – Synthetico.ai

**Achievements:** Innovative Bharat Hackathon 2026 – Sharda University | HackNova – BIIT | GenAI Exchange Hackathon – Google Cloud | Merit-Based Scholarship (1st, 2nd & 3rd Year)

### LANGUAGES & HOBBIES

**Languages:** Hindi (Professional Proficiency), English (Professional Proficiency) | **Hobbies:** Sketching, Collecting Leaf Specimens
